Independent Ride Sharing:

Families may wish to coordinate ride-sharing. If you need help connecting with other families re: transportation needs contact your school office staff or administrator.

***If you move or change locations, please follow-up with an email to school staff.

Independent Family Carpooling App-Carpool Kids

<https://carpool-kids.com/>

Invite your friends, then set up as many separate carpools as you need for your kids. Scheduled carpool events can be one-time or repeating and sync with your iPhone's calendar. Event updates by push notification or e-mail keep everyone up to date. Families to independently verify insurance. Free sign-up.

Review: "I love this app. We started a carpool with 4 family's to and from school this year and this app saved the day! It makes it so easy to see who is driving and which kids will be participating each trip. With the swipe of a finger kids can be in or out for any specific trip. Our 5th graders are able to look st the app to see who is driving each way. Makes carpooling what it is supposed to be, helpful! I highly recommended it!"
